

## GLASS TOUCH T WHEEL

Glass Touches are a series of User Terminals featuring a sleek design with a glass surface, touch-sensitive keys and wheel for user interaction. Designed to work with the Butler XT via the e:bus protocol, the Glass Touch keys and wheel are easily customized using the e:cue software to perform any function according to project requirements. Pleasing to the eye, these devices are the perfect solution for user interaction and control in high-end lighting applications such as hospitality, architectural, healthcare, residential and other projects. Glass Touches are wall mountable, and up to eight units can be connected to a single Butler XT for flexible installation.

### KEY FEATURES

- 4 configurable touch keys with status LED
- Play/Pause button
- 1 On/Off key with status LED
- LED ring with 12 RGB LEDs
- Touch-sensitive wheel
- Remote control via IR-sensor
- Compatible with standard in-wall fittings
- Ultra thin
- Glass front (black & white version)
- Connects via free topology e:cue e:bus (2-wire power and data connection)

### PACKAGE CONTENT

	Item-No.
• Glass Touch T Wheel	See right col.
• Hexagon screw key	130010
• Mounting plate	70124

### ACCESSORIES

	Item-No.
• IR Remote control	160079

### GENERAL SPECIFICATIONS

	Item-No.
T Wheel Sys II Black	160220
T Wheel Sys II White	160221
Dimensions (W x H x D)	160 x 80 x 11 mm / 6.3 x 3.15 x 0.43 inch
Weight	0.3 kg / 0.66 lbs
Power	24V DC, 100 mA (via e:bus)
Operating / storage temp.	0°-40°C / 32-104 F
Operating / storage hum.	0-80% non-condensing
Environment	IP20
Housing	Glass (surface), Aluminium (housing)
Mounting	In-wall mounting
Certifications	CE

### USER TERMINAL SPECIFICATIONS

User Interface	Capacitive touch sensor
System Link	e:bus (screw terminals)
Remote control	IR

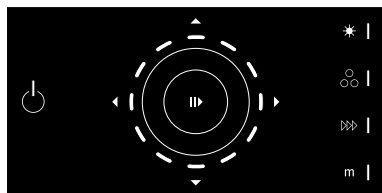

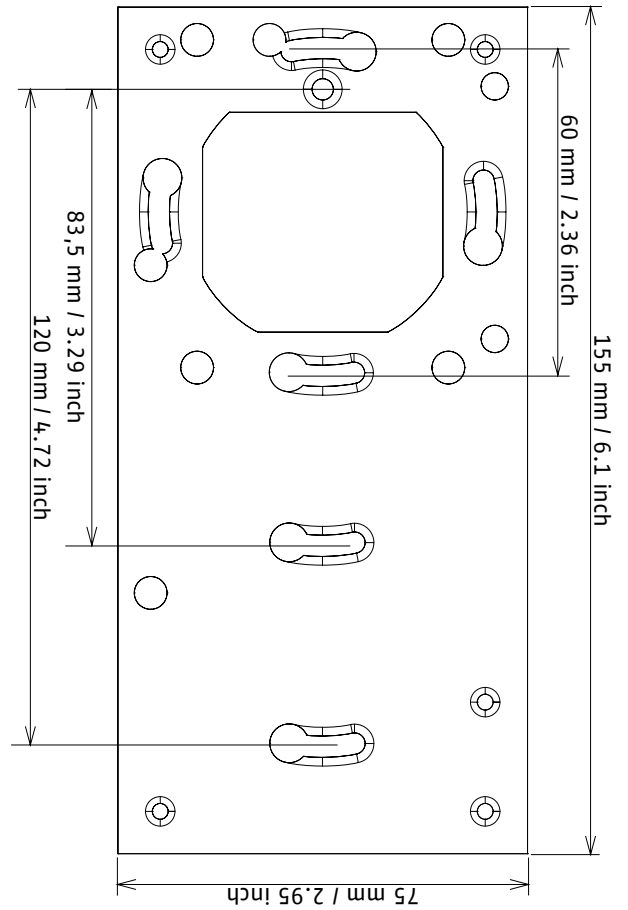

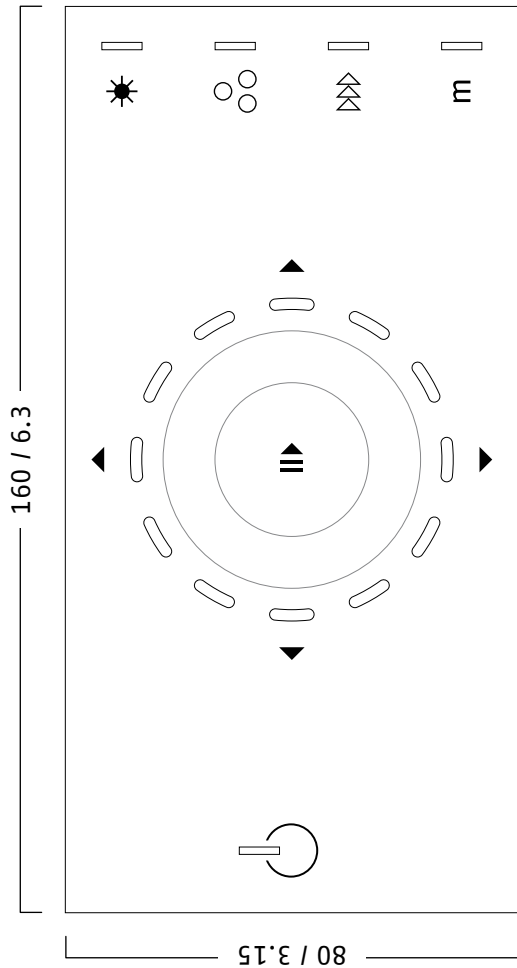

Please read the e:bus manual for more information on wiring topology and maximum cable length / cable types. Available at [www.ecue.de](http://www.ecue.de) for free download.
