

OPTOTRONIC OT DMX 9x2A DIM SO

Dimmers for LED modules

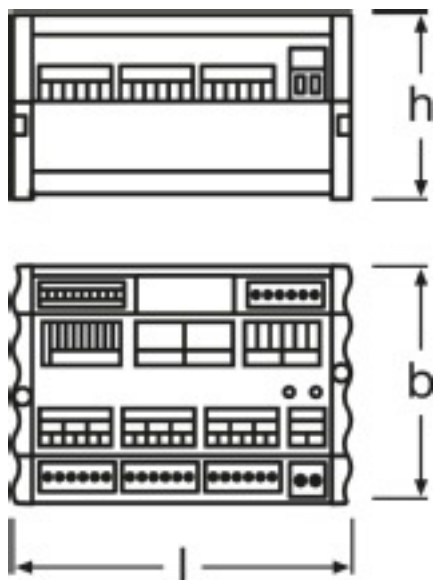

Product benefits

- Intelligent electronic constant-voltage 9-channel DMX dimmer
- Daisy chaining for series control of multiple DMX devices

Product features

- Nine output channels, can be controlled individually via DMX
- Automatic or manual addressing
- Maximum operating output voltage: 2 A per channel
- Housing for series installation
- Control via DMX interface by means of DMX control units
- Reversible protection mechanisms for short-circuits and overloads
