

OPTOTRONIC OT 20/220-240/24

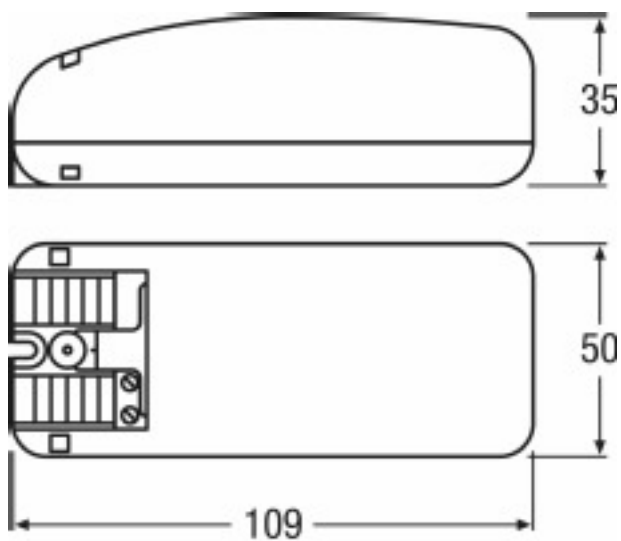

Constant voltage ECG 24 V for LED modules

- Ideal for mounting in very tight spaces
- Suitable for indoor applications

Product features

- SELV equivalent
- Cable clamp housing for independent mounting

Product line drawing with numbers

Technical data

Product description	Ambient temperature range	Input voltage	Nominal voltage	Mains frequency	Output voltage	Maximum temperature at tc test point
	-20...+45 °C	198...254 V ¹⁾	220...240 V	50/60 Hz	24 V ²⁾	70 °C

Product description	Maximum wiring length ECG/lamp	Length
	10 m	109.0 mm

¹⁾ Permitted voltage range

²⁾ ±1.0 V

Application advice

For more detailed application information and graphics please see product datasheet.
