## Lighting Control Engine 3

#### e:cue Server

e:cue Lighting Engines are servers developed for the control of large and complex projects. e:cue's SYMPHOLIGHT and the Lighting Application Suite (LAS) are preinstalled on all e:cue servers. As a central control unit, the versatile servers guarantee uninterrupted operation, since all lights and controllers are controlled within a project. e:cue servers are scalable to cover all project requirements.

### e:cue Lighting Control Engine 3

The Lighting Control Engine 3 (LCE3) serves as a highperformance server for controlling large lighting projects, with pre-installed e:cue SYMPHOLIGHT and Lighting Application Suite (LAS). As a central control unit, this versatile light control server orchestrates all devices and lights within a project. The LCE3 has integrated digital dry contacts, two single-pole relay outputs and support for a wide range of Ethernet-based protocols. Shows and light scenes can be controlled with the internal web server via mobile devices, web browsers or via cloud applications. A built-in status display on the front shows system and software messages. The LCE3 is the ultimate server solution for any demanding lighting project.

### **Highlights**

- Software licenses for e:cue's SYMPHOLIGHT and Lighting Application Suite, pre-installed
- High quality industrial components for reliable uninterrupted and efficient 24/7 operation
- 2 x SSD hard disk drive in RAID 1 operation for increased system stability
- Integrated dry contact inputs (6x) and relay outputs (2x)
- LC display and cursor keys for status messages
- Easily mountable in 19 inch racks, space saving (3U)

#### **Delivery** scope

• e:cue Lighting Control Engine 3 AM368100035 including Microsoft® Windows 10™ IoT Enterprise and software licenses for e:cue's SYMPHOLIGHT and Lighting Application Suite

Identcode

- Printed LCE3 Information for Use (English / German), safety instructions
- Rack mounting rails, including screws
- mini DisplayPort to DisplayPort adapter
- 3 x IEC-C13 power cord (EU, US, and UK versions)
- Dry contact plug
- 2 x relay interface plug

<b>Product</b> Lighting Control Engine 3	Product number AM368100035
Dimensions (W x H x D)	483 x 133 x 405 mm/ 19.02 x 5.24 x 15.04 in (incl. mounting brackets)
Weight	12.3 kg / 27.12 lb (incl. mounting brackets)
Power supply input	100 240 V AC, 50/60 Hz
Power consumption	110 W typically (incl. optional video capture card), efficiency up to 92.5%
Operating temperature	0 40 °C / 32 104 °F
Storage temperature	-10 70 °C / 14 158 °F
Operating / storage humidity	0 80% RH, non-condensing
Protection class	IP20
Housing	Steel, front panel powder coated
Mounting	in 19-inch rack with rails
